

# Sheet Material Product Information

## Product Description

We supply a range of sheet material. This complements our stocks of stress-graded and engineered timber.

Our sheet material range comprises:

### ORIENTATED STRAND BOARD (OSB3)

#### OSB3

We supply BBA approved, conditioned OSB3 from major manufacturers. This is available on request in various thicknesses and board sizes.

### PARTICLEBOARD INCLUDING CABERFLOOR P5, CABERDEK P5 PEEL CLEAN AND CABERSHIELD PLUS

#### Caberfloor P5

The key T&G board sizes are 18 x 600 x 2400mm and 22 x 600 x 2400mm. Other board sizes are available on request.

#### Caberdek P5

This product has a peel clean protective covering. It is also moisture resistant (P5). Caberdek T&G flooring is supplied in the same range of sizes as Caberfloor P5.

#### Cabershield Plus

Cabershield Plus T&G flooring is a moisture-resistant P5 board with a permanent protective non-slip coating.

#### Particleboard Accessories

A full range of all Norbord approved tapes, glues and adhesives are available on request.
